Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 21 is rejected under 35 U.S.C. 102(b) as being anticipated by Nishida et al., US Pub. No. 2001/0055854 A1.

Re claim 21, Nishida et al. disclose a method for transferring a first substrate 101 to a second substrate 105 (figs. 1A-1E, wafer is having round shape), which comprises: molecularly bonding to each other first and second front faces of first 101 and second 105 substrates (see figure below for more details), respectively, to provide a composite structure (fig. 1E), the first and second faces being substantially parallel and corresponding in surface shape (fig. 1E), the first front face having a first outline (fig. 1D), the second front face having a second outline (fig. 1E), and a peripheral side of the second substrate substantially bordering the second front face and being oriented generally perpendicularly with respect thereto (fig. 1E), wherein the second outline has dimensions larger than the first outline (fig. 1E), such that during bonding at least a portion of the first outline is disposed within the second outline (fig. 1E) and inherently shows improving bonding in a region at the periphery of the first front face; and wherein the second substrate 105 is substantially free of any chamfer between the peripheral side and the second front face thereof (fig. 1E), see figs. 1A-13G and page 1-11 for more details...

Reasons For Allowance

3. Claims 1-11, 13, 15-20, 22-28 and 31 are allowable over the prior art of record.
4. The following is an examiner's statement of reasons for allowance: Applicants' arguments have been considered in view of amended claims 1, 22, and 25, are persuasive. These claims are therefore allowed for reasons deemed to be of record.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2813

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
